

How do I quote Relevant Life policies only?

Last Modified on 24/03/2017 9:59 am GMT

Webline offers business protection quotes which bring back results for Relevant Life policies if the search criteria is met. There is no specific option to select or filter results to display only Relevant Life policies but the quotes are returned for all business protection policies meeting the criteria required.

To quote for Business Protection, navigate to Quotes > Protection > Business Protection.

The screenshot shows the Synaptic Webline user interface. At the top, there is a navigation bar with a home icon and links for Quote, Track, Users, Settings, Admin, and Info. Below this is a 'Create Quotes' sidebar with three main categories: Protection (highlighted in blue), Annuities, and General Insurance. Under the 'Protection' category, there is a list of sub-options: Term, Business Protection (highlighted with a blue box), Income Protection, Term Additions, and Whole Of Life. To the right of this list, there are three additional options: Over 50s Life Cover, Multi-Benefit, and Multi-Policy. At the top of the page, there are promotional banners for a Multi-Benefit comparison service and a 30-day free trial offer.
