

# Can I delete research?

Last Modified on 23/03/2020 3:06 pm GMT

All research within Synaptic Research is automatically stored. Therefore, if you don't want to keep a piece of research you have to explicitly delete it.

This can be done using the **Delete** link on the menu bar. Alternatively, you can delete multiple pieces of research at once from the **Recent** tab on the home page.
