What browser software can I use?

Last Modified on 02/06/2017 9:20 am BST

Synaptic Research is designed to run on the following platforms (and all later versions of each browser):

Windows

Internet Explorer   6.0, 7.0 (recommended) 8.0 or

9.0

Firefox 1.0 or   2.0, 3.0 or 6.0

Netscape 7.0

Google Chrome   15.x

Mac OS X

Firefox

Safari 2.0

Camino

Linux

Firefox

Mozilla 1.6

Solaris

Mozilla 1.6

The recommended browser is Internet Explorer (version 7).

Synaptic aims for the software to run seamlessly on all the other browsers/platforms listed above. However, Synaptic cannot provide support for configuring any browsers other than Internet Explorer.
