

# How do I search for fund factsheets?

Last Modified on 21/02/2020 12:44 pm GMT

This article explains how fact sheets can be produced from Synaptic Research for **Contracts**, **Companies** and **Funds**.

Within Synaptic Research there is the ability to produce fact sheets for current **Contracts**, for **Companies** who are present on the software and also for over 95,000 funds (March 2011). Use this section on the **Home page** to get access to these fact sheets:

Use the tabs -**Contracts**, **Company**, **Fund** to get access to the relevant fact sheet.

In this example, we are going to access a fact sheet for the **Prudential Investment Bond**.

Select **Contracts** and type in the name of the contract. The full name can be entered, or

a string search can be entered.

A string search is a shortened version of the contract name:

Find: **Contract** Company Fund Client

Name:

(Enter the contract name to search for)

Once this has been entered, click **Go**. Select the contract to produce the fact sheet, by clicking on the blue contract name:

Find: **Contract** Company Fund Client

Name:

- [Prudential Intermediary Division Flexible Investment Plan - Distribution Income Bond \(ICO\)](#)
