

# How long is stored research held on the system for?

Last Modified on 14/06/2017 10:58 am BST

As described in the User Guide, Synaptic guarantees to store research on the system for at least 30 days. This is a minimum contractual requirement – it doesn't mean that Synaptic will delete research on the 31st day and, at the moment, Synaptic has no plans to delete any stored research.
