

Can I customise Modeller?

Last Modified on 20/06/2017 10:13 am BST

Navigate to Settings and select Modeller Customisation. From here you can have a 'read only' view of the investment strategy that is deployed in your system which includes the ATR questionnaire and the Asset Allocation mappings.

You would need to be an 'Investment Strategy Administrator' to create Investment strategies. Please refer to the Synaptic Investment Strategy Customisation Guide for more information.
