

Income Analysis Research - Other Income

Last Modified on 05/10/2017 3:47 pm BST

Other income gives you the opportunity to add details of any other income sources that you would like the system to take into consideration when determining how to meet the income profile along with calculating the tax liability for the scenario.

State pension is included as part of other income. To take it out of the calculations then untick the selection box. The state pension age is auto-calculated from the age and gender of the client using Office of National Statistics data; this can be changed if desired. The yearly income amount can be amended to your client's specific circumstances.

If your client has earned additional state pension then this figure can also be taken into consideration when calculating the income analysis. This number must be manually input.

State Pension

Include state pension in the calculation? 

State Pension Age

Years Months

Yearly Income

Include additional state pension amount in the calculation?

Amount

Indexation

Other income gives you the ability to add as many additional sources of income that you need to be considered during the income analysis.

Income Name – this will list all previously entered income source from the holdings area for this client, alternatively add other income sources manually.

Date from – this is the date you need the other income to start.

Age to – this is the age at which the other income is to cease within the income

analysis calculations

Frequency – How often the income source is paid to the client, can be monthly, quarterly, half yearly or annually

Frequency type – can be either advance or arrears

Amount – this is the amount of income paid at each frequency

Indexation - RPI, CPI, AWE, or a manually input escalation rate can escalate the other income amount

Taxable – is the other income input taxable or non-taxable. This information is used when calculating the income needed to achieve the income profile

Product Category – this dropdown is to classify the other income and is surface in any reports generated

The form is a light green rounded rectangle containing several input fields:

- Income Name:** A dropdown menu with "Select..." and a downward arrow.
- Date From:** A date picker with fields for "dd", "mm", and "yyyy", and a calendar icon.
- Age To:** A text input field containing the number "80".
- Frequency:** A dropdown menu with "Select..." and a downward arrow.
- Frequency Type:** A dropdown menu with "Select..." and a downward arrow.
- Amount (Gross):** A text input field containing "£ Amount".
- Indexation:** A dropdown menu with "Select..." and a downward arrow.
- Taxable:** A dropdown menu with "Select..." and a downward arrow.
- Product Category:** A dropdown menu with "Select..." and a downward arrow.

At the bottom left of the form are two buttons: a light green "Cancel" button and a dark green "Add" button.
