Comparator Report is showing dollar and pound signs - Why is this?

Last Modified on 17/02/2020 11:55 am GMT

If the incorrect currency is showing on your Comparator reports, this is usually caused by the language settings within your browser.

If using Internet Explorer, navigate to Internet Options> Languages:

dd the languages you use to read webs reference. Only add the ones you need e used to impersonate websites in other	, as some characters can
