

Settings

Last Modified on 05/06/2019 9:30 am BST

After we confirm your registration, you may immediately log on to the service using your administrator user name, and set up your company details using the "**Settings**" facility in Weblines. In this section, you can set panels of products for the quotes, as well as set the commission levels (by provider and product) if you wish to sacrifice commission.

Select **settings** from the toolbar.

The **Settings** menu is displayed on the drop down menu.

The following sections will go through each of these areas in turn.
