

Agency Codes

Last Modified on 04/02/2025 10:54 am GMT

For certain providers, you must enter your agency codes to receive quotes. It is good practice however to enter all of them when setting up Weblene.

Selecting **Agency Codes** will display a table listing all the providers.

The screenshot shows the Weblene interface. At the top, there's a navigation bar with 'Quote', 'Apply', 'Track', 'Documents', 'Users', 'Settings', and 'Info'. The 'Settings' menu is open, showing 'Vendor Account' as the selected section. Under 'Vendor account', the 'Agency codes' option is highlighted with a mouse cursor. Other options include 'Account details', 'Edit your account', and 'Help text'. To the right, under 'Account options', there are 'Quote Form', 'System Options', and 'B2C Quote Form'.

Select **Edit** for each provider and enter the agency codes. Select **Save**.

The agency codes entered for this account are shown below

These numbers are stamped onto any proposal form created by Weblene, and used by providers to identify the source of the quote requests they receive. Not all providers use agency codes to identify users for quotes, some use your FRN Number and postcode in combination.

Some providers will assign you with an *Override FRN number* which is used to identify you to their internal quote systems, where usual means fail. If assigned, this number is shown, although only the provider may edit it. You should contact the provider in question if you have any issues with the information shown in the Override FRN number field.

FRN Firm Reference Number
As assigned by FCA

OFRN Override Firm Reference Number
Provider assigns this to identify firms with no FRN or firms which clash with other firms due to their location (e.g. same postcode)

AC Agency Codes
Provider assigns this to identify firms. Often used in combination with postcode for more precise identification

PC Post Code
Normally used in combination with your firms agency code or FRN. Ensure the postcode entered on your Weblene account is the one associated with your FRN or Agency Code.

NA Not Applicable
This provider does not have the capability to recognise vendors. Commission is set to default level. No sacrifice possible
