Within **Commission Settings**, select the product type which will display list of providers.

Webline gives you the facility to set the value of commission you would like from each product provider for the product type.

Each quote of that type will then be based on the commission style you have set for your company rather than the provider's default

The screenshot displays the 'Commission for Synaptic Webline Admin' interface. At the top, it is titled 'Protection - Term'. Below this is a table with three columns: 'Provider', 'Setting', and 'Edit'. The table lists various providers and their corresponding commission settings. A callout box points to the 'Edit' column, stating: 'Select Edit to amend the commission for the relevant providers.'

Provider	Setting	Edit
Aegon	100% Initial Indemnity,100% Renewal	Edit
AIG	100% Initial Indemnity,100% Renewal	Edit
Aviva	Sacrifice 0 Initial Lauro Indemnity, Sacrifice 0 Renewal Lauro	Edit
Beagle Street	Not set. Using default values	Edit
Friends Life Individual Protection	Not set. Using default values	Edit
Legal & General	5% Initial Indemnity,30% Renewal	Edit
LV=	Not set. Using default values	Edit
Old Mutual Wealth	0% Initial Indemnity,100% Renewal	Edit
Royal London	Not set. Using default values	Edit
Scottish Widows	90% Initial Indemnity,100% Renewal	Edit
VitalityLife	Not set. Using default values	Edit
Zurich	100% Initial Indemnity,100% Renewal	Edit

Below the table, there is a 'Commission Setting' section for the selected provider 'AIG'. It shows the 'Product' as 'Protection - Term' and the 'Actual Required' status. Underneath, the 'Actual Required Settings' are displayed, including a text explanation of the commission type and three dropdown menus for 'Initial' (100%), 'Indemnity' (Indemnity), and 'Renewal' (100%). A 'Set Commission' button is highlighted with a purple oval and a callout box pointing to it.

Edit the commission for the relevant provider and you will have the option to set the commission sacrifice requirements.

Please note these options will vary depending on the provider.
