Product and Provider Panels

All relevant products are available on your account when you first register, unless disabled by the provider. Select **Provider Panel** and the particular product category which will bring up a list of providers and their individual products.

Select each product type in turn:

Initially the majority of providers will be checked as **yes** – select **no** to disable any, then click the **update** button at the bottom of the screen for the changes to take effect.

Product Panel - Protection - Term
For vendor 1st Line Vendor Admin

The following table shows the current LIVE products on Webline.
You may select a panel of products you wish to offer your users.
To enable a product, check the boxes to the right of the product.
All products highlighted in red have not been set by you, and will adopt default behaviour -
term products will quote if not set, other products will NOT quote if not set.
After making your selection, press the 'UPDATE' button
