

Multi Benefit Products - Level Term Assurance

Last Modified on 01/06/2021 12:24 pm BST

If **Level Term Assurance** is selected you are able to make a selection for the quote from the following screen:

The screenshot shows the Synaptic Webline interface for configuring a Level Term Assurance quote. At the top, there is a navigation bar with a 'Quote' button and a search field. A sidebar on the left lists various product categories, with 'Level Term Assurance' selected. The main content area is divided into two sections: 'Product details' and 'Product features'. In the 'Product details' section, there are radio buttons for 'Quote for' (Life one, Life two, Both) and 'Cover type' (Life cover, Critical Illness cover, Life or earlier Critical Illness). There are also input fields for 'Death benefit amount' (with a pound sign) and 'Term length' (in years). The 'Product features' section includes a dropdown for 'Cover indexation' (set to 'Level') and radio buttons for 'Rates' (Guaranteed, Reviewable). At the bottom of the interface, there are 'Quick Commission', 'Back', and 'Next' buttons.

You can make a selection for **Critical Illness Cover** by selecting the appropriate button;

Level Term Assurance

Product details

This close-up view of the 'Product details' section shows the 'Cover type' options. The 'Critical Illness cover' radio button is highlighted with a red box. To its right, there is a 'Choose...' button and the text 'Comprehensive'. The other options are 'Life cover', 'Life or earlier Critical Illness', 'Life one', 'Life two', and 'Both'. The 'Death benefit amount' and 'Term length' input fields are also visible.

Product features

This close-up view of the 'Product features' section shows the 'Cover indexation' dropdown set to 'Level' and the 'Rates' radio buttons. The 'Guaranteed' radio button is selected, while 'Reviewable' is unselected.
