

# Multi Benefit Products - Decreasing Term Assurance

Last Modified on 01/06/2021 12:27 pm BST

If **Decreasing Term Assurance** is selected you are able to make a selection for the quote from the following screen.

Select the **Mortgage Interest Rate** for **Decreasing Term**:

The screenshot shows the Synaptic Webline interface for configuring a Decreasing Term Assurance policy. The interface is divided into a sidebar on the left and a main content area on the right. The sidebar contains navigation options: Clients, Products, Level Term Assurance, Decreasing Term Assurance (highlighted), Income Protection, Family Income Benefit, Waiver of Premium By Product, Results, and Apply. The main content area is titled 'Decreasing Term Assurance' and contains two sections: 'Product details' and 'Product features'. The 'Product details' section includes the following fields and options: 'Quote for' with radio buttons for 'Life one' (selected), 'Life two', and 'Both'; 'Cover type' with radio buttons for 'Life cover' (selected), 'Critical Illness cover', and 'Life or earlier Critical Illness'; 'Death benefit amount' with a text input field containing '€'; and 'Term length' with a text input field containing 'years'. The 'Product features' section includes a 'Mortgage interest rate' field with a percentage sign, which is highlighted with a red box, and 'Rates' with radio buttons for 'Guaranteed' (selected) and 'Reviewable'. The footer of the interface contains a 'Quick Commission' button, a 'Back' button, and a 'Next' button.

This can include making a selection on **Critical Illness Cover** by selecting the appropriate button;

Cover type  Life cover  Critical Illness cover  Life or earlier Critical Illness
