

Weblines Play - Colour Options

Last Modified on 06/05/2020 3:00 pm BST

Weblines Play allows you to set a primary and secondary colour of your choice, which can be based on your website colour scheme.

All you need is the Hex colour codes you would like to use (we can help with this if needed) and can be discussed with your account manager.

Default Colours

Your Cover

Please choose your type of cover

Life Insurance

Income Protection

Who is the cover for? 

- Just me
 Me and one other person

Next
