In the example below, we have added a **Self Investment Personal Pension** as an investment. If you are unsure of how to add investments, see article [Comparison with Ex-Ante - Add Investment](#) for details.

The screenshot shows the Synaptic Research interface. On the left, the 'Add Investment +' button is highlighted, and a card for 'Self Invested Personal Pension' is displayed. The card includes the investment amount (£227,787.27), risk category (Moderately Cautio...), and target fund (Royal London UK All Share Tracker Z Acc). The main area shows a list of platforms with columns for Growth, Final Value, Total Fees, and RLY. The platforms listed are from 7IM and P1 Investment Management.
