

Research without a Central Investment Proposition - what does it look like?

Last Modified on 13/02/2024 3:34 pm GMT

Research without a Central Investment Proposition will allow you to do Whole of market research.

All platforms & off platform products will be available and they will only be unavailable if a fund or portfolio has been selected that is not supported. Minimum contributions can also filter out a platform or product.

Every user without an assigned CIP will get Whole of market research by default.
