## Comparison & Ex-Ante using a CIP - Research Screen

13/10/2025 2:42 pm BST

This article explains the Research screen in Comparison & Ex-Ante research, using a Central Investment Proposition. If you have not setup a CIP, this can be done in the Investment Pathways tab. For more information on how to create & build your CIP, see articles here.

In the example below, we have added a **Pension** as an investment. See article Comparison with Ex-Ante using a CIP - Add Investment for details on adding investments to your Research.

Multiple investments can be added through the Add Investment + button.

As you add investments, the list of platforms will update to display investments added. At the bottom of the list there will be a platform & off platform combination.

Please note - As we have used a Central Investment Proposition and selected a segment, only platforms, off platform products, portfolios and funds configured in the CIP will pull through.

In the example below, we have added a **Pensions** and **Individual Savings Account**. The platforms listed show the Pension and ISAs included:

## Lowest R.I.Y Platform and Off Platform Combination will be displayed at the bottom of the list:

## Growth, Final Value, Total Fees and R.I.Y are displayed next to each result:
