

# Switching - Research Screen

Last Modified on 23/04/2024 2:24 pm BST

This article is a continuation of [Switching - Creating within a client record](#)

The screenshot displays the Synaptic Research interface for a 'Test Pension Switch' client record. The interface is divided into three main sections: Ceding Scheme (orange header), Target Scheme (blue header), and Outcome (green header). The Ceding Scheme section includes an 'Add Ceding Scheme' button and a card with instructions: 'To start, add a ceding scheme by selecting the Add Ceding Scheme action. When a valid scheme is present a scheme card will appear with a consolidated scheme card. As more schemes are added the consolidated scheme will update and the calculated information will be used as the basis to populate the target scheme and outcome calculations.' The Target Scheme section includes an 'Add Target Scheme' button and a card with instructions: 'Add a ceding scheme first, using the Add Ceding Scheme action. When a valid ceding scheme is present the Add Target Scheme will become active.' The Outcome section displays a card with a binoculars icon and text: 'Critical Yield, Hurdle Rate, Growth Rate and Report will be displayed here when a valid ceding and target scheme are present.' A search bar and navigation menu are visible at the top. Two callout boxes provide additional guidance: one points to the 'Add Ceding Scheme' button with the text 'Add one or more ceding schemes', and another points to the 'Add Target Scheme' button with the text 'Once ceding schemes have been added, Add target scheme.'

The screenshot displays the Synaptic Pathways interface for a research opportunity. The interface is divided into several sections: Ceding Scheme, Target Scheme, Outcome, and Results. Callouts provide detailed information about each section.

**Callouts:**

- Consolidated scheme details:** Points to the Consolidated Scheme card in the Ceding Scheme section.
- Add Switches/Trades & Fees:** Points to the Switches/Trades and Fees tabs in the Target Scheme section.
- Target Scheme Investment details:** Points to the Target Scheme card in the Target Scheme section.
- Outcome details including RIY, Growth, Critical Yield and Hurdle Rate:** Points to the Switch Result card in the Outcome section.
- Edit Target Scheme:** Points to the Edit icon on the Target Scheme card.
- Edit Scheme:** Points to the Edit icon on the Consolidated Scheme card.
- Report:** Points to the Report button on the Switch Result card.
- Update Results:** Points to the Update Results button in the Results section.
- Ceding Schemes are listed individually:** Points to the list of individual ceding schemes (Aberdeen Asset Managers Limited and Quilter).
- Untick individual schemes and update the results:** Points to the checkboxes next to the individual ceding schemes.
- Platforms & Off Platform options will be listed in the results:** Points to the Platforms section in the Results area, showing Fidelity Adviser Solutions.
- Consolidated scheme details will be listed at the top of the results for comparison:** Points to the Consolidated Ceding Schemes summary card at the top of the Results section.
- Cheapest option automatically selected:** Points to the checked checkbox next to the Fidelity Adviser Solutions option in the Results section.

**Interface Data:**

**Ceding Scheme - Consolidated Scheme:**

Current Value	Maturity Value
£77,651.00	£103,200.00
