

Creating a special deal for Abrdn

Last Modified on 14/06/2024 12:01 pm BST

In Synaptic Pathways, you are able to create special deals for Providers. Provider charging structures can vary and may need to be setup differently to ensure the deal pulls through correctly.

For the Abrdn Platform, Synaptic Pathways has charging set up at individual wrapper level to include the additional charges for the International Portfolio Bond and Onshore Bond.

For example, In Synaptic Pathways the standard charge for GIA looks like this:

Note: Screenshots in our articles are for demonstration purposes only.

Tier Start	Tier End	Rate %	Rate £	Fund Type
£0.00	£250,000.00	0.30		All
£250,000.00	£500,000.00	0.20		All
£500,000.00		0.10		All

The International Portfolio Bond has the additional 0.12% applied and the Onshore bond has the additional 0.15% applied to give the below standard bond charge in Pathways.

Tier Start	Tier End	Rate %	Rate £	Fund Type
£0.00	£250,000.00	0.45		All
£250,000.00	£500,000.00	0.35		All
£500,000.00		0.25		All

Setting up a Special Deal

There are multiple ways of setting up terms for Abrdn. Here's two examples:

- If the deal is the same over all wrappers, set the special deal at Platform AMC level and remove individual wrapper AMC charges. This will apply the deal to all wrappers on the platform.
- If the deal is per individual wrapper, leave the Platform AMC at zero and amend charges under each wrapper.

We'll break down each example below.

Example 1

Platform AMC deal.

As we are setting our deal at Platform AMC level, we will start by removing the AMC on individual wrappers. This includes **GIA, Onshore Bond, Offshore Bond, ISA, SIPP & Income**

Drawdown AMC

This will ensure charges are not duplicated in the calculations.

Example 2

Special deal is per individual wrapper, not by Platform AMC.

In Synaptic Pathways, for Abrdn, charges are set by individual wrapper, rather than Platform AMC. If the Platform AMC is blank (as seen below) you can continue inputting individual wrapper charges further down.
