Known issues

- Org managed funds are currently not supported when conducting an ex-post review of a holding that contains an org managed generic fund. This will be resolved in the next release, the current workaround is to use a standard generic fund that can be created by selecting the underlying assets tab of the holding then select 'new' and select the generic fund type.
 - The Portfolio Report will not display when using Safari on Mac OS, this will be resolved, in the interim please use an alternate browser eg; Google Chrome or Microsoft Edge.
